Commercial Purposes shall also include uses of the Material or Modifications by any organization, including RECIPIENT, to perform contract research, to screen compound libraries, to produce or manufacture product for general sales, or to conduct research activities that result in any sale, lease, license, or transfer of the Material or Modifications to a for-profit organization.
- (ii) **Material**: Original Material, Progeny and Unmodified Derivatives. The Material shall not include: (a) Modifications or (b) other substances created by RECIPIENT through the use of the Material which are not Modifications, Progeny or Unmodified Derivatives.
- (iii) **Modifications**: Substances created by RECIPIENT which contain/incorporate the Material.
- (iv) **Original Material**: The research material being transferred by INSERM, including all relevant data.
- (v) **Progeny**: Unmodified descendant from the Material, such as virus from virus, cell from cell, or organism from organism.
- (vi) **Unmodified Derivatives**: Substances created by RECIPIENT which constitute an unmodified functional subunit or product expressed by the Original Material. Some examples include: subclones of unmodified cell lines, purified or fractionated subsets of the Original Material, proteins expressed by DNA/RNA supplied by INSERM Laboratory or monoclonal antibodies secreted by an hybridoma cell line.
- (vii) **Invention**: Any scientific discovery or creation, whether patentable or not, concerning the Material which results from the use of the Material, including but not limited to Modifications, or any other material that could not have been made without the Material, unmodified derivatives or part thereof, or manufacture or method(s) of use of the Material or Modifications.

## **TERMS AND CONDITIONS OF THIS AGREEMENT**

### **1. OBJECT**

- 1.1 RECIPIENT acknowledges that this Agreement is entered into in order to encourage scientific collaboration aimed at further development and application of the Original Material and exchange of technical data.
- 1.2 INSERM agrees to supply the Original Material to RECIPIENT under conditions set forth herein.

### **2. SUPPLY OF ORIGINAL MATERIAL**

- 2.1 The Scientist shall send the Original Material to the Site of investigation to the attention of the Investigator.
- 2.2 INSERM and the Scientist could not be held responsible for the possible damages of transport. Should the Original Material not arrive or arrive at the Site of investigation under conditions such as it would be unusable, the Scientist will send again the Original Material to the Site of investigation to the attention of the Investigator, at Investigator expenses.
- 2.3 The Original Material sending charges shall be integrated, if necessary, under the financial conditions mentioned in the present Agreement.

### **3. USE**

- 3.1 RECIPIENT agrees that the Material :
  - (a) is to be used solely for purpose of Research described here before;
  - (b) will not be distributed or released to any third parties for any purpose;
  - (c) will not be used in human subjects, in clinical trials, or for diagnostic purposes involving human subjects;
  - (d) is to be used only in compliance with all laws and regulations applicable to the Material; and
  - (e) is to be used only at RECIPIENT place and by scientists working in RECIPIENT's laboratory or under the RECIPIENT direct responsibility.
- 3.2 RECIPIENT shall have the right, without restriction, to distribute substances it has created through the use of the Original Material only if those substances are not Progeny, Modified Progeny, Unmodified Derivatives, or Modifications.
- 3.3 Without prior written consent from INSERM-TRANSFERT, RECIPIENT may NOT provide Modifications for Commercial Purposes. If RECIPIENT wishes to use or obtain a license of the Material or Modifications for Commercial Purposes, RECIPIENT may first require a commercial license from INSERM subsidiary, INSERM-

TRANSFERT, and INSERM-TRANSFERT has no obligation to grant such a license to RECIPIENT. RECIPIENT acknowledges that INSERM-TRANSFERT can, in addition, grant a license, exclusive or non-exclusive, sell or assign all or part of said rights under the Material to third parties, subject to antecedent rights held by others.

#### **4. PROPERTY**

4.1 INSERM retains ownership of the Material, including any Material contained or incorporated in Modifications.

Furthermore, INSERM retains all rights it may have on Inventions, in accordance with intellectual property laws under inventions, in particular patentable, which could result from the use of the Original Material by RECIPIENT.

4.2 Modifications realized only by INSERM shall be the entire property of INSERM.

Modifications realized by both INSERM and RECIPIENT, or by the sole RECIPIENT, shall be the co-ownership of INSERM and RECIPIENT.

4.3 RECIPIENT retains ownership of those substances created through the use of the Material or Modifications, but which are not Progeny, Unmodified Derivatives or Modifications (i.e., do not contain the Original Material, Progeny, or Unmodified Derivatives).
